

Policy session on Human Health and Ecosystems Health

Time and date: 5:00 pm - 6:30 pm, 14 September 2015

Venue: Keynes Hall, Kings College, Cambridge University, Cambridge, UK

Issues

1. Does environmental change lead to impacts on human health and well being?
2. Is human health negatively as well as positively determined by the condition of ecosystems and biodiversity?
3. Does ecosystem or site specific studies corroborate with generic nature of relationship?
4. Do macro findings mask the micro findings?
5. What could be the direction of future research?

Panelists

Conor Kretsch

Research Fellow - Ecosystems and Health, Faculty of Social Sciences, University of Nottingham

Andrew Morse

Professor of Climate Impacts, University of Liverpool

Rebecca Lovell

Research Fellow, European Centre for Environment and Human Health, University of Exeter Medical School

Charles Perrings

Professor of Environmental Economics, Arizona State University

Chair: Pushpam Kumar Chief, Ecosystem Services Economics Unit, UNEP
