4. Scientific programme

The full scientific programme and papers will be uploaded on the Conference website at: http://www.bioecon-network.org/pages/20th%202018/20th_2018.html

Each conference day commences with one keynote address. This year's speakers are:

Professor Douglas Gollin, University of Oxford
Professor Paul Ferraro, John Hopkins University

The scientific programme consists of **parallel sessions** with academic papers. Each paper presented is allocated a 30 minute slot of which 20 minutes are for the presentation by the author, 5 minutes for comments by the designated discussant and the remaining 5 minutes for other questions, exchanges and comments.

The conference programme also includes **special policy sessions** that are run by the policy organisations that support BIOECON. The policy sessions keep with the spirit of the BIOECON network which aims to bring together the academic and policy communities that work on the economics of biodiversity conservation. These sessions aim to critically evaluate current scientific knowledge and identify knowledge gaps that should be filled in order to produce new and improved actionable and effective biodiversity policy recommendations.
